

## **Outdoor Heated Seat**

Teleplex Limited are pleased to present this unique heated seat.

The photos depict a double seat installed on a patio for couples to enjoy an evening outside together in the chilly evenings and a single seat which is a portable demonstration model for you to enjoy trying out.

This can be seen at the Crown in Clerkenwell Green during the festival. The joy of the seats is that they are warm to sit on outside. You can eat, drink, smoke or sit quietly in comfort when the weather is chilly.
